My thoughts: I'm of course biased as my wife and I used All Night Long for our own wedding. We hired the owners of the company to ensure it went off without any issues, although we'd read countless reviews by others who used their normal staff and who also had zero issues. In any case, we used them for music, keeping the party moving and some lighting, and everything came out perfect. There are numerous people on TK who have used them and think highly of them so I don't think you can go wrong with this vendor. If you do want to book the owners, that's an option you'll find on their ordering form, the "Jeff & Jeremy Package."
