TK threads mentioning him:

- Only bad review I've seen for him: [CLICK](#)

My thoughts: DJ Godzilla has been used by numerous regulars on the TK Vegas locals forum for at least as far back as 2010 and I've only seen the one negative review in my list above; everything else has always been positive. He is a one-man show, he doesn't charge \$1000+, he has nearly all good reviews, so I'd still not tell anyone to not use him, but if you do, no harm in bringing up the topic of that issue he had and ask what he's done to ensure it can't happen again.
