## **TK threads mentioning this vendor:**

### **My opinion:**

I did not have the opportunity to utilize this company for my own wedding but we tried to. Seven months out I contacted them after reading some positive reviews, and, more importantly, seeing some video of them in action at a few weddings; they were booked. The contact did not stop there however; unlike most companies who would just tell you no can do and send you on your way, Arlene from Sound Fusion gave me the names of three other companies to try that they either knew personally or had working knowledge of. That is nearly unheard of these days. Beyond that, Arlene gave me numerous tips on things to ask of DJ's being considered and what to keep on top of while planning.

We were over the top happy with the company we ended up using, but I would have no qualms about recommending Sound Fusion as well; they are a class act.
